ONLINE PORTFOLIO (IN PORTUGUESE)
Full case studies: research, process, screens and results.
higaxiportfolio.vercel.app

SUMMARY

Product Designer with **8+ years** of experience in B2B and B2C digital products, from research to handoff. Over the last 5 years I led UX/UI teams at two companies, rolled out a **design system across 10 platforms** and took products from discovery to measured outcomes, such as a sales app that cut proposal time from **2 days to 3–5 minutes**. I use AI throughout the design process and led the internal AI committee at my last company. Looking for a **Senior Product Designer or UX Lead** role focused on product management and AI-driven design.

EXPERIENCE

Product Designer | UX Lead

04/2024 – 07/2026

Tecnologia Única · São Paulo, Brazil · Technology and digital products company

- Led the UX/UI team: prioritized demands, reviewed delivery quality and aligned directly with clients and the development team.
- Created and rolled out the **design system** used across **10 platforms**, cutting development time for new features by **30%** and standardizing the interface across products.
- **Premium League** (fantasy football game, app and desktop): ran a heuristic evaluation, benchmarking, user interviews and usability tests with real users. Several of the opportunities we found (auto lineup, ad-free, stats and notifications) are now part of the **PRO plan**. See case →
- Led the **internal Artificial Intelligence committee** and built AI solutions for the design and product process.
- Gave the company-wide talk "UX/UI Design: behind the scenes" on how design works with POs, Scrum Masters and stakeholders.

TOOLS: Figma · Figma Make · Claude AI · Miro · Notion · Front-end (support)

Product Designer

07/2022 – 01/2024

Grupo Ivy · Minas Gerais, Brazil · Digital transformation: platforms and apps for clients

- Designed high-fidelity prototypes and interfaces for digital platforms and mobile apps in Scrum and Kanban cycles with cross-functional teams.
- Structured the design-to-development workflow (specs, documentation and handoff rituals), reducing developer rework by **up to 3×** and speeding up delivery.
- **Angel Investor Club** (investor community app): one-tap onboarding, phone-only sign-up, feed and chat. See case →

TOOLS: Figma · Photoshop · Illustrator · Scrum · Kanban

Product Designer | UX/UI Tech Lead

12/2020 – 07/2022

Digitaly Tech · São Paulo, Brazil · Custom digital solutions. Joined as a mid-level Product Designer and was promoted to lead the design team.

- Coordinated the design team and design QA for every company delivery, interviewing clients to define solutions.
- **Pormade Portas**: led the digitization of a fully paper-based sales process. CSD matrix, interviews with three sales-rep profiles, journey map, flowchart integrated with the legacy system and A/B usability test (**95% success in 12 s** vs. 72% in 25 s for the previous version).
- Outcome: proposal time from **2 days to 3–5 minutes**, **91% adoption** by field sales reps (target: 90%) and errors down from **~350 to ~50** per 1,000 proposals. See case →

TOOLS: Figma · Notion · A/B testing · UX Research

EXPERIENCE (CONTINUED)

Mid-level Designer
10/2020 – 12/2020

Camaleó Creative · Brasília, Brazil · Advertising

– Created online and offline campaign content and mobile app interfaces, backed by usability research and A/B tests.

Graphic Designer | Art Director
03/2020 – 11/2020

Seotimize · Brasília, Brazil · Digital marketing

– Built conversion and lead-generation landing pages in WordPress and Unbounce, and high-fidelity prototypes for a medical care service.

Graphic Designer
02/2018 – 03/2020

Ahi Studio · Brasília, Brazil · Design studio

– Social media, video editing, 2D animation and website interfaces.

EDUCATION

Technologist Degree in Systems Analysis and Development · Universidade Anhembi Morumbi — 2021 – 2024

Technologist Degree in Graphic Design · Universidade Anhembi Morumbi — 2016 – 2018

COURSES AND CERTIFICATIONS

Organizational Leadership · Leon Consultoria — 2025

Scrum Fundamentals · AgileIT Academy — 2022

Lean Six Sigma White Belt and Yellow Belt · FM2S — 2022

Short courses · Game Design (Escola Seven and Escola Saga), Mobile UX/UI, UX Rainbow, Design Thinking, Figma and AI Prompt Engineering (Udemy), Figma UI (DIO), Graphic Design (Senai)

SELECTED PROJECTS

FREELANCE · REAL ESTATE REGULARIZATION

Pode Regularizar

The brief was a visual refresh; research showed a structural flow problem. I redesigned the door-to-door sales tool with scheduling, real-time goals and early technical validation, validated with an A/B test of the dashboard.

~50% faster in-home service, near-zero rework, quality rating from 3.0 to 4.5 and from 12 to 23 clients served per month.

See case → /projetos/pode-regularizar

DOMESTIC EMPLOYEE MANAGEMENT

Hora do Lar

Redesigned the homepage under the new brand guidelines, structuring each block for employers with no labor-law background. Updated the employee time-clock app and designed the employer app from scratch.

New website and two apps, with a block-by-block usability breakdown of the homepage.

See case → /projetos/hora-do-lar

ALSO IN THE PORTFOLIO: AKAMAI, 4 BRAND GUIDELINES AND 19 WEBSITES AND LANDING PAGES.

SKILLS

Product and UX
- Product Discovery
- UX Research and interviews
- CSD matrix, journeys and flows
- Usability and A/B testing
- Design Thinking and workshops
- Metrics and KPIs

Interface and systems
- High-fidelity UI
- Design Systems
- Interaction Design
- Wireframes and prototypes
- Developer handoff
- Accessibility

Leadership and AI
- Design team management
- Design QA and mentoring
- Internal AI committee
- AI-driven design and prompting
- Scrum and Kanban
- HTML, CSS and JS (basic)

TOOLS: Figma · Figma Make · Claude AI · Miro · Notion · Photoshop · Illustrator · WordPress · Elementor · Unbounce

LANGUAGES: Portuguese (native) · English (intermediate: good reading and writing, basic conversation)

LET'S TALK

Full case studies, with screens and interactive prototypes, are in the portfolio.
